THE UNIVERSITY OF WESTERN AUSTRALIA
Grade: First Class Honours, WAM: 81%, GPA: 6.5/7

WORK EXPERIENCE

VISAGIO | SOFTWARE ENGINEERING CONSULTANT Perth, AU | May 2022 – March 2023

- Developed features in a web tool with **Angular** and **Typescript** to streamline manual processes, leading to a 15% increase in efficiency.
- Designed a structure to improve code quality and reduce code size by 10%
- Led a project using **Python** and **Data Visualisation** to streamline processes and achieve a 30% increase in efficiency.
- Interacted with clients to provide solutions and responded to feedback with prompt changes.
- Implemented new **APIs** and fetched data with **C#**, **SQL** and **.NET**
- Managed the **DevOps CI/CD** cycle using tools such as **Azure**.

THE UNIVERSITY OF WESTERN AUSTRALIA | RESEARCH ASSISTANT Perth, AU | Nov 2022 - Present

- Created a deep learning model with **Python** and **Keras** to diagnose ear diseases from otoscopic images.
- Utilised **LaTeX** to present experimental results in a thesis and submitted a literature review in a journal.

SOAR.EARTH | SOFTWARE ENGINEER INTERN Perth, AU | Aug 2020 – July 2022

- Enhanced the UI of the Soar.Earth platform through **React**, **Redux**, **Typescript**, **HTML** and **CSS** contributing to a 10x increase in user registrations to 50,000
- Performed automated testing using the **React Testing Library** and **Cypress**
- Implemented new features, fixed bugs, and conducted QA testing under **Agile** practices
- Upgraded legacy code and fixed bugs using **Java** and **Android Studio**

THE UNIVERSITY OF WESTERN AUSTRALIA | CASUAL TEACHER Perth, AU | March 2022 - June 2022

- Tutored and assisted a class of 15 University students in CITS1001 Software Engineering with Java
- Evaluated projects and assessments, offered constructive feedback, and monitored exams

PROJECTS

TEACHING AND QUIZ WEBSITE ⬈ PYTHON, FLASK, JAVASCRIPT, HTML, CSS, GIT
Led a university web project team of 4 to build a full-stack Python education website. Admins can create new content and quizzes and gives users the ability to attempt the quiz and store the quiz results for tracking.

PARTICLE VISUALISER ⬈ UNITY, C#, VR, GIT
Developed a simulation as a final semester project with a team of 6, featuring a custom-built physics engine to visualize chemical particle interactions. Achieved a score of 100% from client.

AWARDS

HACKATHON - 2ND PLACE, INFOSYS 2023 ⬈ REACT, FIGMA, CANVA, GIT
Secured second place in the 2023 Hackathon sponsored by Infosys leading a team of four members, and received a team cash prize of $1800 for developing an innovative product promoting sustainable practices using React, Figma, and Canva.

SKILLS

Languages: Python, TypeScript/JavaScript, C/C++, Java, SQL, HTML, CSS, LaTeX
Frameworks: React, Angular, Flask, Jupyter
Technologies: Git, AWS, Azure, Unity, Android Studio
